

Mixed Farming Systems for the Future

at Newcastle University's Nafferton Farm

Thursday 28 July 10:00 - 15:00

Join us to find out the latest innovations and farming systems from NU Farms including:

- Arable tour: QLIF long-term cropping systems trial including organic, no-till, rock dust and biostimulant comparisons, ECOBREED Project.
- Livestock tour: Mob Grazing rotational plot, herbal leys

Both tours will take place at 10.30am and 1.30pm, giving you the opportunity to take part in both during your visit
